

COMPANY PROFILE

LET'S DESIGN YOUR SUCCESS

NEXIS LIMITED

Nexis Limited is a company that deals with all branches of web systems. Web system management, website creation, digital marketing, web security, DevOps service, data management, networking, and software quality assurance are all services you will get from us. With three years of successful experience working with domestic and foreign clients and visionaries in the tech industry, you will get all your tech solutions.

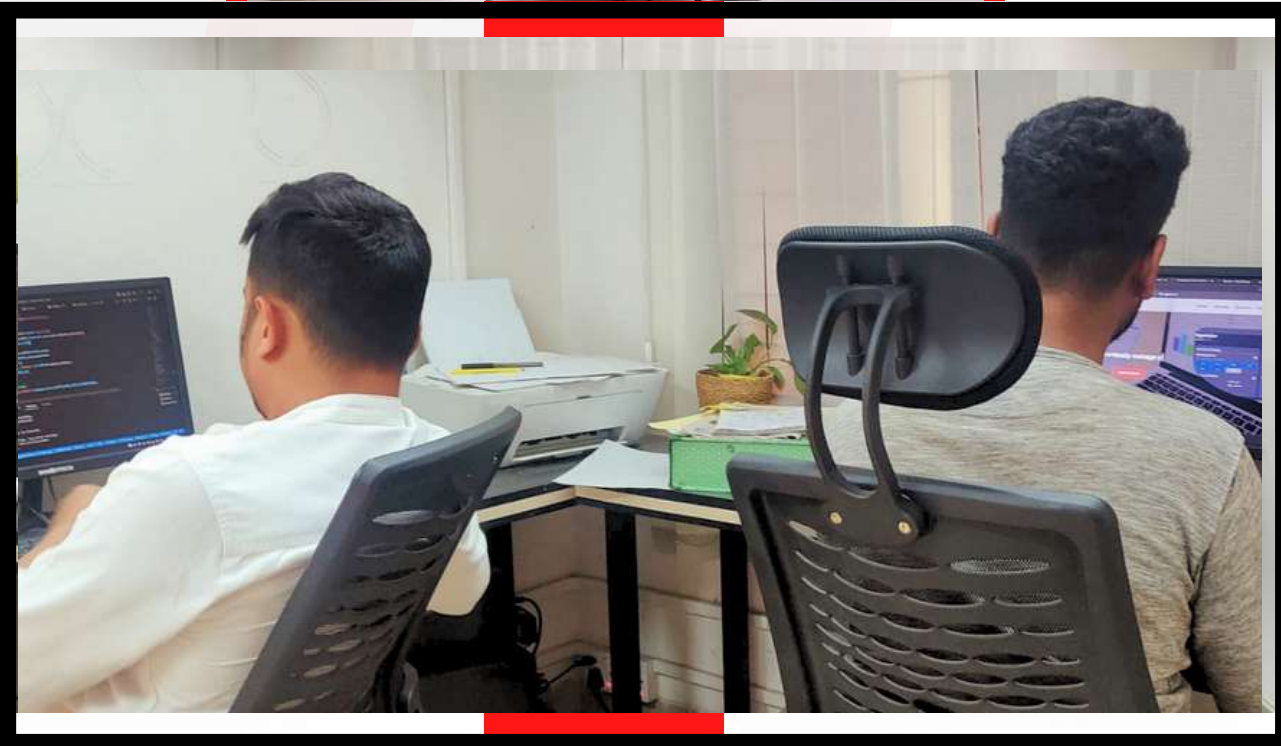

NEXIS

Downloaded from <http://ajphaphysocpharm.sagepub.com> at 11:01 11 November 2014

We already have experience working in the RMG Sector, E-Commerce, E-Learning, Automation, Real Estate, Hospitality, Telecommunication, and Retail sectors. With a proper agreement, we offer all web system development services to our clients in a highly professional manner. We take requirements from clients and try to deliver them as early as possible. After delivering the products, we also follow our client's feedback and continuously support them. Our company policy is easy and transparent. We consider each client as our growth ladder.

ABOUT OUR HISTORY

The journey of Nexis Limited began in 2020. In the beginning, we gradually gained experience through the work of individual clients. After that, we gained trust in the Bangladesh market by working with clients like Multimodal, BSAHRP, Neuve'mi, Crafts Maker, Hoglapata, and many more. As we continue to grow, our team continues to grow, and we have been providing valuable web systems and tech solutions to various clients in many other countries, such as Morocco, Australia, the USA, China, and Canada. We are constantly updating ourselves with the times through customer feedback and have established ourselves as a very fast-growing company in the web development sector.

SAAS PRODUCTS, THAT ARE READY TO USE

ULTIMATE HUMAN RESOURCE MANAGEMENT

Ultimate Human Resource Management is a software platform that automates HR tasks. It includes attendance, payroll, benefits, performance management, and employee scheduling. This system helps corporations manage their employees more easily and provide better services while saving costs. No technical knowledge is required to use this system. Simply click on the option to access employee behavior reports, salary slips, payroll, and other benefits. It is user-friendly and saves a lot of money and energy.

NEXIS

SAAS PRODUCTS, THAT ARE READY TO USE

DIGITAL MENU

Through the digital menu, the customer can see their food on the display on their phone, customize it, and select the menu; no extra manpower is required for taking the food order. The order will be placed by the customer, and the system will automatically generate the slip. We have already introduced this system to many restaurants all over the world. Owners of the restaurants are having a great experience and saving money by not paying extra employees.

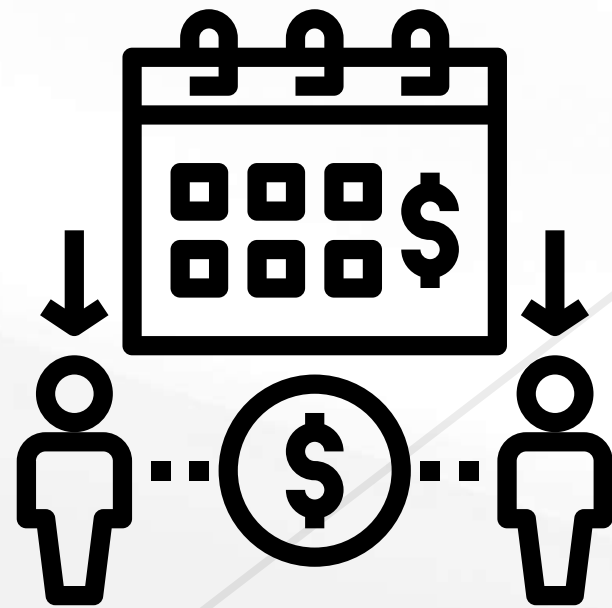

SAAS PRODUCTS, THAT ARE READY TO USE

DIGITAL SCHOOL

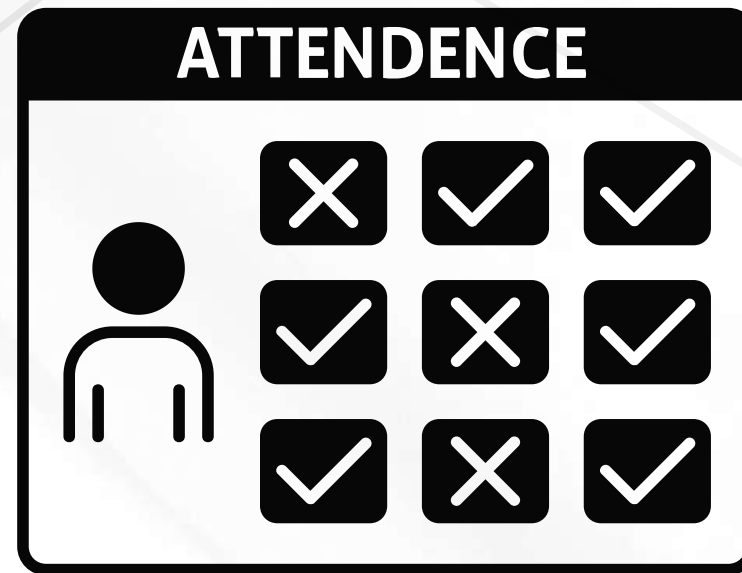

Digital school is a software platform that helps schools manage administrative and academic tasks such as enrollment, attendance, grading, scheduling, and reporting student results. Parents can monitor their child's results, performance, and attendance. Through this system, the relationship between teacher and parents will be stronger, which is very helpful for student development. The school management also can communicate with teachers more smoothly. Many schools in various countries have received many benefits by adopting our Digital school service.

ABOUT OUR MISSION

We want to create a business intelligence model through our work to handle all business-related services of a company digitally. A company's Accounting, Human resource management, Inventory operations, and Marketing are all will be maintained by the Nexis system. We want to enhance the business growth of our customers with creative Design and Development to deliver market-defining high-quality solutions that create value and consistent competitive advantage for our clients around the world.

Our Success Methodology

AND HERE WE ARE

Nurturing our employees and fostering a culture of growth and development is a top priority for us.

Embracing innovation and adapting to change are key components of our organizational strategy.

Exceeding customer expectations and delivering quality products and services is at the heart of everything we do.

Inclusivity and diversity are fundamental values that guide our decision-making and interactions with employees, customers, and stakeholders.

Striving for excellence in all aspects of our business is a core principle that drives our actions and decisions.

FOUNDER OF NEXIS LTD

ISTIAK HASSAN EMON

Managing Director of NEXIS LTD

Entrepreneur || Network Engineer
Cyber Security Specialist|| Devops Engineer

I am Istiak Hassan Emon, the founder of Nexis Limited. I have years of Industry experience. I have done my Bachelor of Science in Computer Systems and Networks Engineering from SEGi University and Colleges, Malaysia.

As the Managing Director of our web development company, I am excited to share my vision for the future of our company. We have a talented team of developers and designers, and we are well-positioned to capitalize on the growing demand for web-based services.

My goal is to push global technology forward, to build modern and new technologies, and to make people's life easier. Nexis Limited, like the others of the world today, is working to achieve Bangladesh's ambition of new technology.

THANK YOU

For your precious time and your attention
